March 17, 1958

Dr. Albert B. Sabin
Commission on Viral Infections
The Children's Hospital Research Foundation
Cincinnati 29, Ohio

Dear Albert:

Your letter of March 8th was delivered to me during the meeting of the Virus Infections Commission in Washington. Thank you very much for sending it. We, of course, all regretted that you were not able to be present and we certainly missed you.

I read your comments at the time the various grants were considered but unfortunately was not in a position to enlarge upon them as you might have had you been there.

We felt that the meeting was very worthwhile and as soon as I can get the minutes written up and distributed, you will hear about it. No particular exciting action was taken on anything but there was a great deal of interesting discussion as usual.

Very sincerely yours,

W. McD. Hammon, M. D.
Director,
Commission on Viral Infections
