MEMORANDUM TO: Participants in Meeting of Commission on Viral Infections, AFEB, 10-11 March 1960, WRAIR

FROM: Dr. W. McD. Hammon, Director

DATE: 29 February 1960

SUBJECT: Verbal Reports at Meeting

Please note that a specific time for discussion has been allocated for each report or group of reports. This scheduling is the result of discussion at the last Executive Session of the members where it was noted that too many reports occupied the full time allotted and no time or insufficient time was left for discussion. Please do not allocate less time than that scheduled for discussion. Fifty percent of the total time devoted to discussion will be entirely satisfactory. Since all members will have had an opportunity to have read your complete written report before coming to the meeting, please bear this in mind. However, for the benefit of the visitors and others who have not received the reports, a brief verbal review of the high lights is indicated.

W. McD. HAMMON, M. D.
DIRECTOR
COMMISSION ON VIRAL INFECTIONS
AGENDA
