Dr. John G. Snyder  
Department of Microbiology  
Harvard School of Public Health  
695 Huntington Avenue  
Boston 15, Massachusetts

Dear Dr. Snyder:

The Manuscript entitled "Brill's Disease: the Interepidemic Reservoir of Louse-borne Typhus Fever", has been reviewed on grounds of military security information, and is cleared for publication. No published reference should be made to this review.

Would you please be so kind as to see that this office receives notification when the manuscript is accepted for publication in order that reprints may be obtained for the Bound Volumes of Collected Reprints of the Armed Forces Epidemiological Board. Also, would you request the publisher to furnish the Medical Property Officer, Office of the Surgeon General, Department of the Army, Washington 25, D. C. a price quotation on 200 reprints, without covers.

Sincerely yours,

Incl  
Ms.  

ADAM J. RAPALSKI  
Colonel, MC  
Administrator,  
Armed Forces Epidemiological Board
