MEMORANDUM FOR: BOARD MEMBERS

SUBJECT: Supplemental Influenza Vaccine Recommendation 1968-1969

1. Enclosed is a copy of a supplemental recommendation the Commission on Influenza wishes to make to the military services concerning vaccines against influenza in the fall of 1968. This supplements the recommendation of February 1968 because of the change in the epidemiologic situation and the marked shifting in the antigenic characteristics of the A2 virus circulating in the Far East.

2. Since it is critical that the military order for monovalent vaccine be processed promptly, your vote by return mail is solicited. A voting sheet and envelopes are provided. Please send 1 copy to Dr. Dammin and 1 to this office.

3. A copy of the recommendation made in February 1968 is attached for your information.

BRADLEY W. PRIOR  
Colonel, USAF, MC  
Executive Secretary

Returned with concurrence.
