Dr. Albert Sabin  
The Children's Hospital  
Research Foundation  
Cincinnati, 29, Ohio

(Through the Chief, Division of Infectious Diseases)

Dear Doctor Sabin:

In talking to Dr. Warren of the Army Virus Laboratory about obtaining some dengue virus, he suggested that I contact you. He has some virus which he would be glad to let us have, but feels that we should have your permission first.

We just plan to use it ~~as~~ another type virus in laboratory virus experiments, and if it is possible would appreciate being able to get a sample.

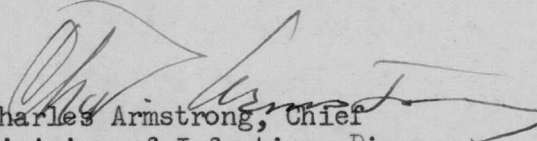

Sincerely,

*Karl Habel / Z.B.*

Karl Habel,  
Surgeon

KH:sw

Respectfully forwarded:

  
Charles Armstrong, Chief  
Division of Infectious Diseases
