April 5, 1949

Dear Dr. Sabin:

It was nice to receive your letter of April 1st in which you wrote about Dr. Matsumoto of Tokyo. We have resumed our fellowship program in Japan and although it is quite limited, I am sending the data about him on to Dr. Oliver R. McCoy, our representative in Tokyo for his information. If his name should come up for fellowship consideration, your recommendation would carry considerable weight.

Kindest personal regards,

Sincerely yours,

Dr. Albert B. Sabin
