March 11, 1935.

Dr. Albert B. Sabin
Rockefeller Institute for Medical Research
66th Street and York Avenue
New York City.

Dear Dr. Sabin:—

I would greatly appreciate receiving reprints of the following papers, if you have any copies available for distribution:

"The Mechanism of Immunity to Filterable Viruses. I. Does the Virus Combine with the Protective Substance in Immune Serum in the Absence of Tissue?"
Brit. J. Exp. Path., 1935, 16, #1, 70.

"The Mechanism of Immunity to Filterable Viruses. II. Fate of the Virus in a System Consisting of Susceptible Tissue, Immune Serum and Virus, and the Role of the Tissue in the Mechanism of Immunity"
Brit. J. Exp. Path., 1935, 16, #1, 84.

Very truly yours,

Jerome T. Syverton, M.D.
