Dear Dr. Salmi:

Thanks very much for the reprints you sent me. I am glad to have them and would appreciate your keeping me on your mailing list in the future. We now have Dr. John Dingle with us at the Thorndike and have a unit for "infectious diseases" which we hope to develop. It would be helpful to us to have reprints of your work such as you are carrying on. If you still have any available of the papers covering your work at the institute, I would appreciate having them too.

Sincerely yours,

[Signature]
