Dr. Albert B. Sabin,
Department of Pediatrics,
University of Cincinnati
College of Medicine,
Cincinnati - Ohio.

Dear Dr. Sabin:

It will be very much appreciated if you will send me a reprint of your paper on THE FILTRABLE MICROORGANISMS OF THE PLEUROPNEUMONIA GROUP which appeared in Bacteriological Reviews, Vol. 5, page 1, 1941, as well as reprints of other papers you have published on this group of microorganisms.

As library facilities are somewhat limited here, I am attempting to collect a reprint library on filtrable viruses, and it will therefore, be further appreciated if you will send me reprints of your publications on this subject.

Yours very truly,

R.M. Taylor.

RMT: EMG.
