Dear [Name]

Many thanks for your very interesting letter, which shows an unusual understanding on your part of the various problems presented by your illness.

I am not in practice and I also regret that we are so occupied with other problems in my laboratory at this time that we cannot undertake to do any of the tests to clarify the various questions you have raised. I think, however, that they are worthwhile investigating and I have written to Dr. Karl Meyer of the George Williams Hooper Foundation of the University of California, in San Francisco, who is the leading authority on the subject of ornithosis in this country. He will write you directly if he should find it possible to undertake any investigations.

With best wishes.

Sincerely yours,

Albert B. Sabin,
Lt. Colonel, M.C.
