Albert B. Sabin, M.D.
The Children's Hospital Research Foundation
Elland Avenue and Bethesda
Cincinnati, Ohio

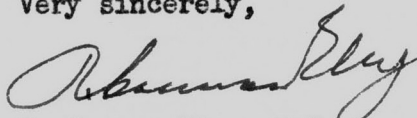

Dear Dr. Sabin:

First let me again thank you for being so helpful in sending us the polio vaccine to be used in the studies carried out by Professor Harris at MIT.

As you know, Kibrick will be our main stay in getting the animals inoculated.

It was a bitter disappointment for me not to have been able to attend the luncheon given for you on Friday and to hear your lecture but I had to leave for New York Thursday afternoon to attend some meetings there. I shall certainly send you the results of the second part of the experiment and again, I sincerely appreciate your help.

Very sincerely,

R. Cannon Eley, M.D.
