EXECUTIVE SECRETARY

March 6, 1963

Dr. Albert Bruce Sabin  
Children's Research Foundation  
Cincinnati, Ohio

Dear Dr. Sabin:

The Sabin Oral Sunday (S-O-S Program) is well underway here in Kanawha County and we are optimistic about its success.

The news media cooperation is fine and I hope it will be possible for you to send a telegram or night letter collect, similar to the suggested copy below so we may use it for publicity with your picture which we already have:

Congratulations on your SOS Campaign. I am confident you will immunize one hundred percent of the population against polio and send best wishes to Kanawha Medical Society for success of the project. Please advise results as I am interested in the welfare of humanity and this community service program.

We are sorry you cannot be with us for the March 12 meeting of our Kanawha Medical Society.

Thank you for your cooperation in helping our S-O-S Campaign.

Sincerely,

Kenneth G. MacDonald, Sr., M. D.
