INTERNAL MEDICINE AND CARDIOLOGY

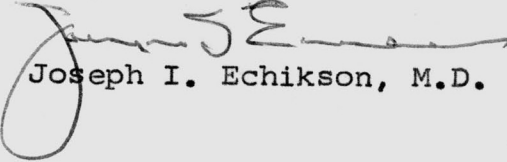

Doctor Albert Sabin  
University of Cincinnati  
Cincinnati, Ohio

My dear Doctor Sabin,

I have a patient who attributes bilateral low back pain to the use of the Sabin Vaccine. I find no evidence of muscular weakness and I cannot agree that his present complaints are due to the use of the vaccine.

I would appreciate it very much if you would let me know whether or not any similar complaints have occurred after the use of this vaccine.

Respectfully,

  
Joseph I. Echikson, M.D.
