Albert Sabin, M.D.  
University of Cincinnati  
Cincinnati, Ohio

Dear Doctor Sabin:

The Clinton County Medical Society has decided to give the Type 3 vaccine, feeling that the great preponderance of evidence is on the positive side. It would help our campaign, which will take place January 6, if we could have a statement from you to use in the publicity. If you could send some of the latest statistics they would be of value.

We greatly admire your work and feel that your word could do a lot to help make the campaign a success.

Sincerely,

Edmond K. Yantes, M.D.  
Clinton County Medical Society
