Dr. A. B. Sabin  
University of Cincinnati  
College of Medicine  
Cincinnati, Ohio  

Dear Sabin:  

Dr. Gundekunst, who as you know is now Medical Director of the National Foundation, spoke to me about the possibility of a meeting of the poliomyelitis group, sponsored by the Foundation and perhaps even financed by them. Several possibilities were mentioned: either having the meeting about Thanksgiving time, or Christmas; having it with some other meeting; or having a special meeting of the group, which of course would be confined more sharply to those really in it.  

I wonder if you would drop me a line telling me what you think as to both time and place of such a meeting.  

With best wishes, I am,  

Sincerely yours,  

W. Lloyd Aycock
