April 14, 1941

Dr. Albert B. Sabin
The Children's Hospital Research Foundation
Elland Avenue and Bethesda
Cincinnati, Ohio

Dear Doctor Sabin:

I wanted to quote you and wondered if the following sentence was correct.

"The sympathetic ganglia were tested for the presence of poliomyelitis virus in 9 patients, 7 of whom had a bulbar and 2 a bulbospinal type of disease."

With kindest personal regards, I am

Sincerely yours,

John A. Toomey, M.D.
DIVISION OF CONTAGIOUS DISEASES
