Dr. Albert B. Sabin
The Children's Hospital Research Foundation
Elland and Bethesda Avenues
Cincinnati 29, Ohio

Dear Albert:

I have just completed the first draft of the chapter for the forthcoming Rivers-Horsfall textbook, entitled: "Poliomyelitis: Pathogenesis and Histopathology." We would like to include the diagram which you published in your recent article in "Science", and to print it on the same page with the one I published in "Science", in order to summarize two current points of view on the possible modes of spread of poliovirus in the body.

May we have your permission to do this? Naturally, the source will be indicated.

I am looking forward to seeing you in Geneva.

Sincerely yours,

David Bodian, M. D.
