June 7, 1957

Prof. Dr. J. D. Verlinde
Instituut voor Praeventieve Geneeskunde
Wassenaarseweg 56
Leiden, Holland

Dear Dr. Verlinde:

The pressure of accumulated work has been so great since my return from Europe about 10 days ago that I regret to have delayed so long in writing to tell you how grateful I am for your kind hospitality during my stop-over in Leiden.

I would appreciate it very much if you could let me know whether the shipment of the specimens to Dr. Giovanardi went off well. I am sorry to have burdened you with this but I greatly appreciate your help.

After considerable discussion with some of my colleagues in the U. S. A. as well as with Dr. Rivers I decided to modify the last part of my Geneva paper, a copy of which I had sent you before. Enclosed you find the new ending, a new Table 12, and a brief statement that I was asked to write for "Medecine et Hygiene".

I am leaving Cincinnati again on June 27th and I am looking forward to seeing you in Geneva.

With best wishes and kindest personal regards.

Sincerely yours,

Albert B. Sabin, M. D.
