Prof. Albert Sabin
Medical University of South Carolina
171 Ashley Avenue
Charleston, South Carolina 29403
U.S.A.

Dear Prof. Sabin:

I was absent of the country when come to my knowledge the deplorable behavior of the government of my country concerning my dear friend and renowned virologist with whom mankind is in eternal debt of gratitude. All Brazilian press has praised your attitude full of pride and courage.

I am enclosing an outline of a newspaper, that has been written by a chronicler I deeply admire. It criticizes the deplorable occurrence.

Certainly you have large experience with Homo sapiens. There are some models that should never exercise public offices, as they are not prepared for the personnal agreement with men of your moral and scientific stature.

My dear Prof. Sabin, let you receive the demonstration of my always renewed esteem and respect. Please give my personal regards to Heloisa.

With my best wishes,

Sincerely yours,

Prof. Carlos da Silva Lacaz
