Dr. Don W. Gudakunst
National Foundation for Infantile Paralysis
120 Broadway
New York, N. Y.

Dear Doctor Gudakunst:

Enclosed is a paper entitled "The Natural History of Human Poliomyelitis II. Elimination of the Virus", which I have just submitted for publication in the Journal of Experimental Medicine.

As you may have noticed from the copies of the correspondence between Dr. Rivers and myself, the question of permission to use the funds we have at present available from the National Foundation for pursuing studies on the [redacted] case has come up for consideration. Dr. Rivers in his capacity as chairman of the Virus Committee has agreed to that but according to the rules I wonder if I should have written permission to that effect from you.

With kindest regards,

Sincerely yours,

Albert B. Sabin, M. D.
