Nov 14/49

Dear Dr. Sabrin:

Congratulations on the excellent program and the fine progress you have already made.

The questions most frequently asked me by the laymen are about, as follows:

1. Why not necessary to donate 50% of Hamilton Co. donations to the National Organization?
2. Why, during a severe out-break of polio in Cincinnati or Hamilton Co., do we admit cases into our Cincinnati Hospitals?
3. Does not Blue Cross contribute considerably to care of patients treated in our Hospitals?
4. Are Hamilton Co. polio funds expended for cases where the patient is sent to Cincinnati by other counties or states?
5. Are patients entering our Hospitals compelled to make a down-payment before they are admitted?
6. Where patients of wealthy or well-to-do families are treated, how do we, in the total case?

Answers to some of these questions might interest our audience.

Sincerely, William Muhlberg, M.D.
