March 2, 1950

Dr. Albert B. Sabin
60 Dept. of Pediatrics
University of Cincinnati Medical College
Cincinnati, 29, Ohio

Dear Dr. Sabin:

I would greatly appreciate a reprint of each of the following papers, which I read with great interest:

1) Skin Reaction to Toxoplasmic Antigen in People of Different Ages Without Known History of Infection — Pediatrics, 4, 6, 798, 1949

2) Persistence of Placentally Transmitted Toxoplasma Antibodies in Normal Children in Relation to Diagnosis of Congenital Toxoplasmosis — Pediatrics, 4, 5, 660, 1949

3) Complement Fixation Test and Persistence of the Antibody in Human Beings — Pediatrics 4, 4, 443, 1949

I hope that you have received the reprint I mailed some time ago.

Sincerely yours,

Heinz Eichenwald
