To:  Drs. Barrett, Grulee, Kauder (vice Mauer) Sabin, Vilter

Re:  Cancer, Heart Disease and Stroke

November 10, 1965

Gentlemen:

Due to the fact that all of our programs were pressing and no one had worked out the changes in the protocol suggested by Dr. Sabin, to say nothing of having new business, the meeting of the Ad Hoc Committee was postponed from November 15.

It is difficult to plan a meeting that the six of us can attend. I am looking at the dates, Monday, November 29 and Tuesday, the 30th, at 11:45 A.M. and would prefer the latter. Perhaps another hour during these days could be found. If not, we'll have to look again to Saturday and consider the 20th and 27th at 12:30 (after lunch); I'd prefer the 20th.

My secretary, Mrs. Lampe, will be calling shortly about the best of these dates and times. Would you please alert your secretary to the hours of these days that might be feasible.

Mr. Yordy writes from NIH that informational materials on the regional medical programs are being prepared and that we will have them when they become available.

C. D. Aring, M.D.
