To the Board Members of Project Hope

The By-laws recently adopted for Project Hope provide that Directors shall be elected for three-year terms, subject to re-election for one additional term. To put this on the desirable staggered basis, it behooves us now to designate the length of the term being served by each of our present Board members.

Your Nominating Committee has almost arbitrarily made the necessary designations, the only firm consideration being that those who were recently elected as new members should have full three-year terms.

Since everyone is eligible for re-election, the period of the current term does not seem crucial.

We are attaching the list of current Board members with their length of term designated.

Sincerely,
BOARD OF DIRECTORS, PROJECT HOPE
