1. Attached is one of the first copies of the catalog of the Viral and Rickettsial Registry.

2. Dr. Ruth Gordon has prepared a note announcing that the Registry is now functioning and that the catalogs are available on request. This has been submitted to SCIENCE and to the editor of the SAB Newsletter and should appear shortly.

3. I am sure that each of us is pleased that our efforts have at last resulted in a functioning Registry. Please accept my thanks for your help in this collaborative venture and my apologies for the dunning which was sometimes necessary.

Joseph E. Smaadel
