1. Dr. R. L. Thompson has made arrangements for the annual meeting of the Viral and Rickettsial Registry. This will be held at 1:30 p.m. on May 30th during the SAB meetings in Chicago. The room, which will be announced in the "Incubator," will be adjacent to the one used by Dr. Kempf's luncheon group which will discuss the teaching of viral and rickettsial diseases.

2. Dr. Freeman Weiss, Curator of the American Type Culture Collection, will present the business report of the Registry for the past year.

3. The agenda for the meeting has not been firmly set but it is hoped that the group will reach a decision. I trust in the affirmative, on the following points: (1) continuation of the Registry for another year, and (2) agreement by each individual contributor to check his material for infectivity and to supply new preparations if needed.

JOSEPH E. SMADEL, M. D.
Chief, Department of Virus and Rickettsial Diseases
