Dr. Albert B. Sabin
Research Foundation
Children's Hospital
Cincinnati 29, Ohio

Dear Dr. Sabin:

Dr. Sigel has called me attention to an error in the Minutes of the V&V Registry meeting in Chicago. Since it concerns you, I want to let you know that I am aware of it. Under New business, on page 2, item 5, reference is made to the Sicilian strain of dengue virus; this should read the New Guinea strain and human unmodified viruses. Item 6 should read "Sandfly fever virus, Sicilian strain and human unmodified viruses." The note after item 6 refers only to human unmodified strains. Confusion concerning the Sicilian strain is my error.

After learning of the mistake, I asked Dr. Weiss to correct his copy of the Minutes but he already had mailed copies to members of the Registry.

We made progress at the Chicago meeting; I do want to thank you for your interest and cooperation in the project.

Sincerely yours,

[Signature]

Randall L. Thompson
