Lt. Col. A. B. Sabin, M. C.  
The Children's Hospital Research Foundation  
Elland and Bethesda Aves.  
Cincinnati 29, Ohio  

Dear Col. Sabin:  

I have on hand, one strain of St. Louis encephalitis virus, but the titer is $10^{-5}$ in young mice.  

In the problem I am interested in, I need a strain that will kill through $10^{-7}$ or $10^{-8}$. Do you have such a strain on hand? If so, I would appreciate it if you would send me some of the virus. Thank you.  

Sincerely yours,  

Vern Bolin
