Dear Doctor:

See how popular you are! People even steal you. But also see what a "Swinger" you are. Married only a short while and already in the hands of another woman. I think that's charming and very beautiful. Satin should keep a careful eye on you.

Kind thoughts to you both,

Edward Amateis
Art work stolen

CLERMONT - Mrs. Katherine Sherman, South Lake Memorial Hospital’s Administrator, reports the theft of the bust of Dr. Albert B. Sabin, M. D., from the row of other prominent physicians also on display in the lobby on the first floor of the hospital. It was presumed taken last Thursday morning.

Dr. Sabin had received the statesmen in Medicine Award recently, and other awards as Distinguished Scientist, Educator and Humanitarian.

The Clermont Police Department is continuing the investigation. Since the bust is of no value as to material composition, it is earnestly hoped that it will be returned to the hospital so that it may resume its former place. The bust is not a copy so that a replica cannot be obtained.

The bust was of terracotta material, and was covered with bronze paint. It had been forcefully lifted off the supporting bracket on the wall, apparently in great haste and with considerable strength. It had been sculptured by Clermont’s renowned artist, Edmond Romulis Amatels.

The Clermont Police Department is continuing the investigation. Since the bust is of no value as to material composition, it is earnestly hoped that it will be returned to the hospital so that it may resume its former place. The bust is not a copy so that a replica cannot be obtained.
