Dr. Albert B. Sabin
Children's Hospital
Research Foundation
Cincinnati 29, Ohio

Dear Dr. Sabin:

In a recent letter from Jim Phinny, he stated that he had discussed with you about writing up the boy who died of rabies. Apparently it was suggested that I write up the virus studies. I would like to do this if the protocol could be made available, and if you would check over and approve the final report.

If the above plans are satisfactory, I would appreciate you having the protocol forwarded to me.

I still miss the group there very much.

With kindest personal regards,

RWB:MH
