Dear Dr. Sabin:

Enclosed is the first chapter of the book which I am planning with the working title of "The Decision Makers."

Chilton Publishers of Philadelphia are interested in publishing it and were tremendously impressed with this chapter on you which I sent them. I hope you like it too. If you have any corrections, please indicate them.

I am also trying to interest a publisher in a book on you alone, if this would be agreeable to you. Please let me know.

It takes a long while to write a book and one must be sufficiently inspired, enthused and excited about the subject in order to carry oneself through the drudgery and hard work involved. The initial idea and research are always enthralling. The follow-up is tedious. I do feel upon meeting you that such a book would be an inspiration to readers.

It was a pleasure meeting you and your lovely wife and I shall look forward to hearing your reaction to THE IMPATIENT MAN.

Sincerely,

Priscilla Calitri
