Dear Professor Sabin;

Thank you very much for your letter of 8 March this year, and for your very useful suggestions. As you told me I first tried the American Embassy in Beograd for my projected trip to the United States and a stipend. Because this failed I am now trying your second suggestion to address the Michigan University School of Public Health again for application to the National Science Foundation for funds under the Senior Foreign Scientists' Fellowship Program. Enclosed is a copy of my letter to the Michigan School to keep you informed of the whole thing, as you have been from the very beginning.

Wishing you and Mrs. Sabin all the best,
Dear Dr. Wegman:

In your very kind letter of 4 January this year you informed of the possibility to spend three months at the University of Michigan School of Public Health. As regards financial assistance I would like to try what Dr. Sabin has suggested me after his talk with Dr. Ronald E. Scantlebury, Science Officer of the Office of International Scientific and Technological Affairs of the Department of State in Washington. The School of Public Health of my choice, Dr. Sabin has written me, might apply to the National Science Foundation for funds under the Senior Foreign Scientists' Fellowship Program. I would be much obliged if your school could make an application for me to the National Science Foundation to provide a financial assistance for my already approved three-month study in the Department of Medical Care Organization with Professor Axelrod, Chairman of the Department.

Hoping to hear from you soon,

Very sincerely yours,

[Signature]

Professor Dr. Jovan Cekić
Director
