Dear Albert,

Enclosed, please find copy of the invitation sent by Prof. Racah to Robert Chanock.

As you may see, we have informed Dr. Chanock that, if Mrs. Chanock will be able to accompany him, she will also be the guest of the University during the period of the Symposium. I understand that you will take care of the arrangements concerning the travel expenses.

With kind personal regards,

sincerely yours,

N. Prywes, M.D.

Dear Dr. Chanock,

On the occasion of the 40th anniversary of the establishment of the Hebrew University in Jerusalem and the installation of the Hebrew University-Hadassah Medical School in its permanent quarters in the Medical Center at Ein Karem, an International Symposium on: "Impact of Basic Sciences on Medicine" will be held in Jerusalem between the 20th and 28th of June 1965.

The programme includes scientific sessions as well as organized tours of the country and its scientific institutions, and we take pleasure in inviting you to be the guest of the Hebrew University at the celebrations and to participate in the scientific gatherings.

Concerning the subject of your lecture, Dr. A. Sabin mentioned to us, that you may be willing to talk on: "Recent Developments in Viral Respiratory Diseases of Man", and we would like you to speak at a session together with Albert Sabin, Salvador Luria and Harry Eagle.

A number of outstanding scientists representing the basic sciences and medicine are being invited from abroad to participate in the Symposium, and it is our sincere hope that you and your colleagues will enjoy your stay with us. At this occasion, we would like to inform you that if Mrs. Chanock will be able to accompany you, she will also be our guest during the period of the Symposium.

We look forward to your early reply, and hope that you will be able to accept our invitation.

Sincerely yours,

G. Racah
