Dear Albert:

As usual, it was very nice seeing you and Heloisa. I am sending you my report on my visit to Asia. I hope that you will not be too disappointed. As I mentioned to you, the visit was very brief, and did not allow for more than the generalities mentioned there.

Warmest regards,

[Signature]

Definition of "primary health care approach"?

What is this approach for dealing with:

1. Diarrheal diseases in children <5 yrs?
2. Life-threatening respiratory infections in children?
3. Under-nutrition in mothers and children?
4. Breast-feeding?
5. Immunization?
6. Sanitation – adequate safe water disposal of excreta
