

Dr Sabin,

I did not forget about the reprint you had asked me.

I could not find anything on chronic demyelinating (inflammatory) polyneuropathy in Arch. Neurol from 1984. I screened all the issue. The only one was my article (sorry that I have to sell you my views again!!) in July 1984. Is that what your friend in Brazil had in mind?

Hope that everything is going very well.

Best Regards, Greetings to Eloisa
Marino
