December 1, 1964

Prof. Dott. Domenico d'Antona
Via Terrenziano 7
Siena, Italy

Dear Dr. d'Antona:

This is to tell you how deeply I appreciated the fact that you and Mrs. d'Antona came to see me in Rome during my recent visit and also to tell you how greatly I enjoyed being with you.

In accord with your request I am sending you, under separate cover, some of the remaining reprints of my various articles dealing with oral poliovirus vaccine. I want to make it clear that reprints of some of the most important ones are no longer available or have not been available. I particularly have reference to the following:

This package of reprints, weighing about 2 pounds, is being sent to you by regular mail and will probably take a month or more to reach you.

With all good wishes and kindest personal regards.

Sincerely yours,

Albert B. Sabin, M. D.

ABS:meh
* I found a photocopy of this reprint which I am sending with the package.
