Elland Ave. and Bethesda,  
Cincinnati 29,  
Ohio.

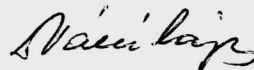

Dear Professor Sabin,

Thank you very much for your kind letter of 16th October concerning the Fellowship of my co-worker, L. Geder in your Institute. I am really very pleased by your kindness and I find your proposals most convenient in every respect.

I am now on a study tour in the United Kingdom for three months, but after returning home I will send you all the necessary papers you indicated in your letter. I would be very happy to greet you again in my laboratory as soon as possible. We made some moderate progress in our work during the past three years, but it would be very useful to hear your advice in this respect.

With best wishes and kindest regards,

Sincerely yours,

L. Vaczi, M.D.
