Dear Augusto and Francesca,

The very kind cable that you sent us on 23 December arrived while Heloisa and I were in Mexico for the Christmas-New Year period which combined a vacation in Acapulco and some government consultation work after the New Year. Shortly after our return home we received the most unusual and beautiful leather memo pad with the built-in watch. Heloisa and I are deeply moved and deeply grateful for your continued thoughtfulness and friendship. We look forward to a reunion in 1975, which depending on the decisions of SCLAVO may be either at the end of March or sometime in the middle of July when Heloisa and I shall be returning from the WHO mission to the Soviet Union. In the meantime we send you our greetings and very best wishes for a happy life in all the years ahead.

Sincerely,

Albert B. Sabin, M. D.
