Dear Al:

Dr. Swarm and I called Charlie on the telephone today, December 13, to nail down the time of his visit to Cincinnati. He preferred coming in the afternoon of March 12 and spending March 13 here. We note that you are scheduled to leave Cincinnati late in the afternoon of March 13 for an NIH Council meeting. We plan to have Charlie participate in the Surgical Grand Rounds between 8:00 a.m. and 10:00 a.m. and to have him give his Basic Science Seminar in the afternoon. The time of the Seminar will be 3:30 p.m. and Dr. Swarm has indicated that he would like for you to preside if your travel plans will allow.

Hope your trip out of the country was an interesting one and not too tiresome.

WAA/dw

Chicago 37, Illinois  

Dear Charlie:

Many thanks for taking time out of your busy schedule to talk with us regarding your coming visit to Cincinnati. We are delighted to know that you have accepted our invitation to spend Wednesday, March 13, 1968, visiting my department in the morning and to give a Basic Science Seminar lecture in the afternoon.

It would be helpful if you could arrive on Tuesday afternoon, March 12. We will have someone meet you at the airport if you will let us know your flight number and time of arrival in advance. A room will be reserved for you at the Vernon Manor Hotel or Edna and I would be delighted to have you stay at our home, whichever you wish.

On the morning of March 13, one of us will bring you to the Surgical Grand Rounds at the Cincinnati General Hospital which begins at 8:00 a.m. and lasts until 9:30 a.m. We will arrange to have two or three cases presented which I am sure will be of interest to you and will serve as takeoff points for your discussions.

As you have requested, we will forego "lunch with beer" at Mecklenburgs so that you will be at your very best when you give the Basic Science Seminar. Please let Dr. Richard L. Swarm or me know the title of your talk so that we can make appropriate announcements in the local medical journal and other news media.

Needless to say, we are all looking forward with great anticipation to your return to Cincinnati. In the meantime, may I express to you our warmest regards and best wishes for a happy holiday season and good new year.

Sincerely yours,

W. A. Altemeier, M.D.  
Professor of Surgery  
Chairman of the Department
