Albert B. Sabin, M.D.
The Children's Hospital Research Foundation
Elland Avenue and Bethesda
Cincinnati 29, Ohio

Dear Doctor Sabin:

We received today the 32 ounce bottle culture of BS-C-1 cells which came through in good condition. I appreciate very much the kindness which you have shown to me and I will be most happy to make available any results which we obtain in comparing the sensitivity of these cells for S.V.40 with primary green monkey kidney cells. As soon as we are ready to subculture this 90th passage, we plan to preserve half of the cells in the liquid nitrogen refrigerator for future use. I hope that I may be able to see and say 'hello' to you next week during the Federated Meetings in Chicago.

With kindest regards.

Sincerely yours,

Robert N. Hull, Ph.D.
