JUL 16 1980

Dear Dr. Sabin,

Thank you for your pleasant letter and Xerox of the historic Einstein article which I am pleased to have.

I am not sure I am entitled to the rubric of "cosmic religious sense" since I am relentlessly secular and self-analytic of H. sapiens in my thinking about religion. But I hope you will be able to expone yourself further to it in The Ghost Dance. I am grateful to Bill Kennedy to have brought us than together.

With admiration

Weston LaBarre

The new address is that of a retirement colony near Chapel Hill, only six miles down the road from our former country home.

Dr. & Mrs. W. La Barre
