Dear Albert:

Under separate cover we are sending a complete Cooke Microtiter set, together with tape dispenser, test reading mirror, centrifuge carriers and a package of disposable U or V plates. I also am including a photographic copy of the micro LBCF technique as used at C.D.C. I imagine this will be published shortly in the Public Health Service Reports. I am sorry to say that a complete catalogue on the Cooke Microtiter price list is not yet available but I will send it along as soon as we have one made up.

Hoping to hear your comments of this system in your hands and I'm sorry that I could not get it to you any sooner.

Yours sincerely,
