Dear Dr Sabin,

I thank you very much for your letter of March 7 that I have just received. I am very sorry that by accident my letter of January 6 was not sent by air mail.

I thank you also for sending me the photocopy of your interesting letter to Dr Fox. I should highly appreciate it if you could let us know whether the paper by Dr Fox has already been published. If not, I should be obliged to you very much for kindly sending us a photocopy of his manuscript, or at least some more data on his results.

The paper, a manuscript copy of which I sent you in November was submitted for publication to Arch. ges. Virusfor. and it will be published in this journal in a not very distant future, probably already in the next number.

I should like to inform you that I was asked by Dr Lion of Bruxelles to send him some of the strains you kindly supplied us in February 1961. Enclosed herewith is the list of the virus lines sent to Dr Lion.

Please remember me to Mrs Sabin.

Sincerely Yours

V. Vonka, M.D.
Viruses sent to Dr Lion, February 8, 1962

Type 1: LSc, Cincinnati, KP 5+1 of 2-15-61, terminal dilution progeny, supplied by Dr Sabin, first monkey kidney passage in our laboratory;
Mahoney KP 12+2 of 8-29-61, original Mahoney strain, supplied by Dr Sabin, second monkey kidney passage in our laboratory;
Mahoney KP 34+1 of 3-10-61, partially attenuated, terminal dilution purified, supplied by Dr Sabin, first monkey kidney passage in our laboratory;

Type 2: P-712, KP 4 of 4-9-55, terminal dilution purified, supplied by Dr Sabin;
P-712 of 1-16-60, triple plaque purified 25°C mutant derived from vaccine strain P-712, Ch.2ab, supplied by Dr Sabin;
YSK, KP 52 of 6-24-55, terminal dilution progeny, supplied by Dr Sabin;

Type 3: Leon, terminal dilution progeny, attenuated KP 35+1 of 7-3-61, supplied by Dr Sabin, first monkey kidney passage in our laboratory;
Glenn KP 27+1 of 14-3-61, terminal dilution progeny supplied by Dr Sabin, first monkey kidney passage in our laboratory;
Glenn 3a2b of 14-3-61, 25°C mutant, triple plaque purified, supplied by Dr Sabin, first monkey kidney passage in our laboratory.
