

STANFORD UNIVERSITY SCHOOL OF MEDICINE

2398 SACRAMENTO STREET
SAN FRANCISCO 15, CALIFORNIA

DEPARTMENT OF PEDIATRICS

October 8, 1948.

Dear Albert:

Robert Ward is on the list of candidates to succeed me here next year as Professor of Pediatrics, and we have been asked to get certain specific information regarding: 1) his ability as a teacher for undergraduates and house staff; 2) his personality and relations with other people (colleagues, patients, those who work under him, etc.); 3) investigative ability in terms of originality, competence, etc.; 4) probable ability as executive head of a department. While I know the answers to some of the questions myself, I should much appreciate your own comments on them and on any other relevant points that may occur to you.

With kindest regards and many thanks

Sincerely yours,

Harold K. Faber, M.D.

Dr. Albert B. Sabin
Children's Hospital
Cincinnati 29, Ohio.
