RESEARCH DEPARTMENT
DIVISION OF CLINICAL INVESTIGATION

January 29, 1957

Albert B. Sabin, M.D.
Department of Research Pediatrics
Children's Hospital
Cincinnati, Ohio

Dear Doctor Sabin:

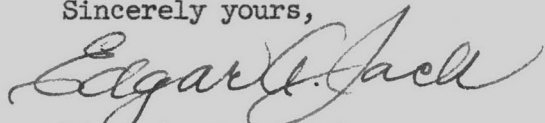

I expect to be in Cincinnati during the week of February 11-15, and hope I will be able to pay you at least a short visit during that period.

The main purpose of this trip is to help establish Cincinnati's College of Medicine as a center for the evaluation of new Ciba drugs. Toward that end, our Division has assigned to the Cincinnati area a specially trained Research Field Associate, Mr. S.L. Koons.

It will be Mr. Koons' responsibility to keep the staff of the school informed of Ciba's investigative drugs, and to facilitate trials of those accepted for examination. We trust this new arrangement will be helpful to everyone concerned.

Please let me know soon if you will be able to see Mr. Koons and me during the week in question, and the time and place most convenient to you for such a meeting.

Sincerely yours,

Edgar A. Jack, M.D.
