July 16, 1964

Dr. Albert B. Sabin
Children's Hospital
Cincinnati 29, Ohio

Dear Dr. Sabin:

We are currently preparing a sixth-grade science textbook entitled SCIENCE IS ADVENTURING which is scheduled for production before the end of this year.

We are wondering, therefore, if we may be privileged to include a photograph of you working in your laboratory. This may be in black and white. If you have a transparency available, we would appreciate having it.

Also, we wonder if you can provide us with an inoculation scene with children, in color preferably, along with photomicrographs of polio virus.

It is hoped that you will be able to help us with the inclusion of your picture in our book, Dr. Sabin, and that you will fulfill this request as soon as your convenience allows.

Sincerely,

(Mrs.) Sylvia Royt
Elementary Science Dept.
