July 26, 1970

Dear Albert,

I did not write any sooner to you as I wanted you to see Debbie and Amy first. By now I think I know how you feel and there is so little to say but let her work out her own salvation. She is all bent up and for some reason distrusts all who are her own. No matter how much assurance or love I tried to show to make her feel as my own, it just didn’t work, so now I leave her alone and just told her that she should see her mother and have some problem that
she can't work out alone while you are not here, she is always welcome to call me or stay at my home, providing she works or goes to school. It's her choice and she can't blame anyone for it.

Amy and Scott were very sweet and of course they promised to spend their School Holidays with me.

How was your trip on the continent? I hope it proved successful and you had some rest. You didn't write much about your own health.

Have never received one
2

Copy of the Jerusalem Post.
I do hope they can send it, as most of the news we get here appears as though we are getting another deal of being sold down the river.

I wrote to flea in Jerusalem but never received an answer. As for Avid Ben-Ami I received an answer from his secretary that he was away in Leningrad and when he
returned. She was sure an answer would be forthcoming.

As for myself, I am working extremely hard, almost triple time, but in one way at least during the week it is so absorbing that I have no time for anything else. Have spoken to our sister Florence and she tells me all is well with Dave and her family. I also asked about paying off the graves of our parents but the price is prohibitive so will continue the old way.
The heat is almost unbearable now but this will last at least for another few months.

If you don't have the time ask the girls to write.

It means so much to get a letter.

With all my love to you Debbie and Amy
As ever

Bess

My best to Margalita and Ugy.
