December 15, 1992

Dear Dr. Sabin,

Thank you for the background information on the echovirus 22 you provided in your letter of July 25, 1991. A reprint of our article is enclosed. We are preparing another manuscript on the biology and epidemiology of this virus and your data will be most helpful also in this context.

With kindest regards,

Yours sincerely,

Timo Hyypiä, M.D.
