April 23, 1942

Dr. Albert B. Sabin,
Children's Hospital,
Cincinnati, Ohio.

Dear Doctor Sabin:

It is desired to report that we now have a case of encephalitis lethargica, type unknown, at this hospital. Some time elapsed between admission and making of diagnosis and during this time he has improved rapidly.

We are inclosing herewith an abstract of the clinical record for your information.

Yours very truly,

[Signature]

Louis M. Field,
Colonel, M. C.,
Surgeon.
