WASHINGTON

October 17, 1942

SUBJECT: Reported case of lymphocytic choriomeningitis

TO: The Commanding Officer, Lawson General Hospital, Georgia

1. With reference to the case of lymphocytic choriomeningitis reported on the Weekly Statistical Report for the week ending October 3, 1942, it is requested that samples of the blood and spinal fluid from the patient be sent to the Army Medical School, Washington, D. C. as indicated in SEC Circular Letter No. 107. Subject: "Laboratory aids in the diagnosis of neurotropic Virus diseases". A copy of this Circular Letter is inclosed for your convenience.

2. The first blood specimen should be accompanied by a history of the case in quadruplicate as indicated in Paragraph 2 a (5) of Circular Letter No. 107.

For The Surgeon General:

Kirk T. Mosley
Captain, Medical Corps
Assistant

1 Incl.
Circular Letter No. 107

CC: Lt. Col. Harry Plotz, Virus Laboratory, Army Medical School
Dr. Albert B. Sabin, Children's Hospital, Cincinnati, Ohio
